Article 16

Text proposed by the Commission

Amendment

Article 16

***Automated matching through the
common IT platform***

deleted

1. The Commission shall develop a European classification of skills, competences, qualifications and occupations. This classification is the tool facilitating on line job application across borders for the European Union by performing job matching, identifying skills shortages, recognising qualifications and providing career guidance on the EURES portal.

2. Member States cooperate with each other and the European Commission regarding interoperability between national systems and the classification referred to in paragraph 1.

3. To that end, by 1.1.2017 each Member State shall establish an initial inventory to map all its national, regional and sectoral classifications to and from the classification referred to in paragraph 1, and, following the introduction of the use of the inventory on the basis of an application made available by the European Coordination Office, regularly

PE576.611v01-00

update the inventory to keep it updated with the evolution of recruitment services.

4. The Commission provides technical support to Member States who choose to replace national classifications with the classification referred to in paragraph 1.

5. The Commission shall adopt, by means of implementing acts, the technical standards and formats necessary for the operation of the classification referred to in paragraph 1. Those implementing acts shall be adopted by the Commission in accordance with the examination procedure referred to in Article 34(3).
